

Video Management Software

LifeSize® Control™ is an all-in-one, video management software solution that provides complete management for multi-vendor networks.

Complete control of your video communications devices

LifeSize Control is designed for IT managers and network managers to efficiently manage growing video and audio communications networks.

Discover multi-vendor systems, monitor performance issues, and notify administrators via cell phones and PDAs.

Schedule point to point and multipoint conferences easily and automatically establish calls.

Provide on-demand, graphical reports for management and export to PDF or other formats at the touch of a button.

LifeSize Control is built on the Microsoft.NET™ framework and uses open, industry standards to ensure maximum security, integration and expansion for the future.

Absolute simplicity for end users. Confident IT administrators.

Lower TCO. It all adds up to the best return on video communications investments.

Clearly Better Management

Simple-to-Use, Web-based Interface

New Dashboard landing page provides access to critical information improving administrator effectiveness

Complete Global Management

Real-time management and centralized software upgrades

Multi-Vendor Support

Manage a complete multi-vendor, standards-based network including LifeSize®, Polycom®, Radvision and TANDBERG®-Codian systems

Fast, Easy Scheduling

Schedule multipoint or point-to-point conferences using a web browser

Graphical Reporting & Exporting

Prepackaged data and graphical reports with one touch export to Excel™, CSV, PDF, and HTML

Global Directory Services

Automated registration and global access to directory with H.350, LDAP or active directory support

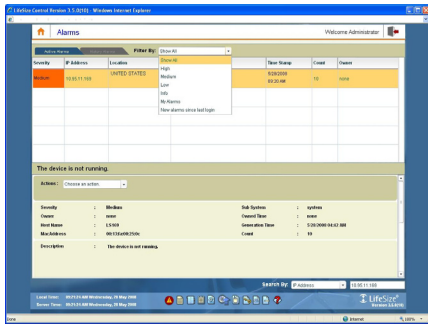

Secure

Standards based access methods and end-to-end encryption

Automatic Call Establishment™

No forward planning for calls or multipoint conferences, system intelligently assigns resources

Product Specifications – LifeSize® Control™

Graphical, Web-based Dashboard

All-in-one, easy to use, web-based interface
Provides immediate access to critical information
Dashboard click-through access to multiple tasks

Multi-Vendor, Video Management Software

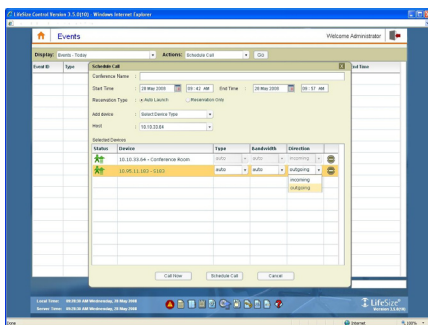

Inventory auto-discovery and management
of multi-vendor video communications and IP
devices
Manages video end point systems and video
infrastructure
Manages multi-vendor H.323, H.320
standards-based systems.
Manages LifeSize®, Polycom®, TANDBERG®-Codian,
and RADVISION systems

Real-Time Alarms, Filter and Workflow

View and filter alarms
Notify technicians via email and cell phone

Templates and Software Upgrades

Schedule and manage groups and individual systems
Backup and restore individual systems
Configuration for non-production environment
upgrades beta, lab and production groups

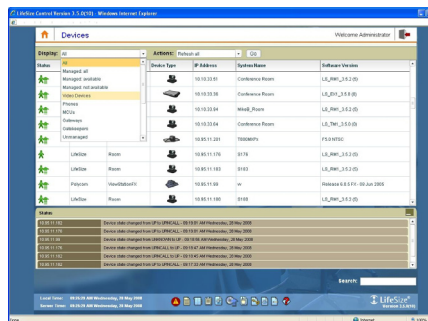

Scheduling Specifications Web-Based Scheduler

Intuitive, web browser-based scheduling interface for
administrators and scheduling bureaus
Time zone aware for automatic adjustment to
appropriate time zones
Detects resource conflicts
Add external participants
Remotely initiate, modify and terminate conferences

Directories Services

Standards-based H.350, E.164-compliant user
directory
Import and export user directories
Auto populate new users
Hierarchical address books
Real-time updates
Support for multi-vendor address book formats
Support for Open LDAP and active directory
environments

Automatic Call Establishment™ (ACE)

Intelligent call set up and automatic re-routing. No
forward call planning for point-to-point large
multipoint calls

Reporting

Pre-packaged and customizable reports
Usage, inventory, diagnostic and audit reporting
on call detail records (CDR)
Graphical and data reports by year, month, week
and day
One button export to Excel, PDF, HTML, CSV

Open, Extensible, Platform

Microsoft.NET™ architecture, open, standards-based
platform
Support for industry standard databases with
PostgreSQL

Security

Standards-based encryption—Rijndael, 16 bit
Secure access methods include SSL, SSH, SFTP, SNMP
v3
Active Directory authentication
Transaction log files
Audit features
Secure storage
Roles-based access for administrators, engineers
and operators

Server Requirements:

Web-browser based management module that runs
on a Windows Server™ 2003 system
Microsoft Active Directory

LifeSize Control supports the following
server configurations:

- For support of up to 100 devices: single processor
2.66 GHz machine; 1 GB RAM; 80 GB hard disk drive
- For support of up to 5000 devices: dual processor
2.66 GHz machine; 4 GB RAM; 160 GB hard disk
drive

Client Requirements:

Microsoft Internet Explorer™ or Apple Safari™
Adobe Flash™ plug-in

Licensing:

Per seat packages and unlimited site license available
