

Welcome to Lifesize® Dash™

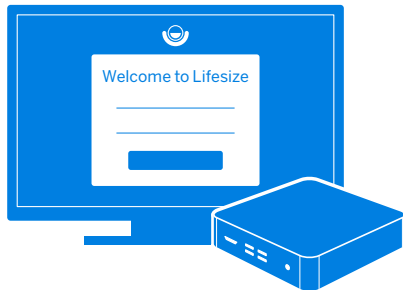

Setting up your Lifesize Dash room is a simple three-step process. In addition to your supported room hardware, you will need your Lifesize subscription or trial account credentials and an active Google account. To optimize your meeting experience, additional configuration of your Chromebox, tablet, and firewall settings may also be required. Visit lifesize.com/help/dash for more information.

Setup

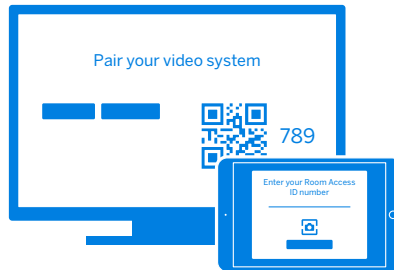

Activation

1. Set up your Chromebox

- Sign in to your Google account, then visit dash.lifesize.com to download and install the Lifesize Dash app
- Open the app, sign in with your Lifesize credentials, and follow the on-screen instructions

2. Set up your tablet

- Download and install the Lifesize Room Controller app for your tablet
- Open the app, then enter the Room Access ID or scan the QR code displayed by your Chromebox

3. Make a test call

- Tap Call on the Home screen of your tablet
- Tap the Search bar to search for and select a contact, room, or meeting
- With the mouse, click to approve the use of your camera and microphone when prompted
- After joining the call, tap Leave Meeting on your tablet to conclude the test

Initial setup is complete. Your Lifesize Dash room is now ready to use.
