MeetingBoard

...ist die Bezeichnung für eine Funktion, die Kamera / Mikrofon und Tonausgabe des MTR Systems an einem PC/Laptop als USB Gerät verfügbar zu machen.

Somit steht z.b. am Laptop dann ein Yealink Meetingboard als Webcam/Mikro und Lautsprecher zur Verfügung. Die Kamera Steuerung erfolgt weiterhin über das vorhandene Touchpanel des MTR Systems.

Der alternative Client, z.b. Zoom wird am PC/Laptop genutzt und wählt sich in das Meeting ein – unter Nutzung der AV- Technik des Raumes.
